### POWER PROJECT GIVEN SCRUTINY

The Proposed Electric  
Line to Huntsville  
Will be Studied

(Associated Press.)  
MONTGOMERY, Ala., April 20.—Word was received here this morning by the Alabama Public Service Commission from the Sheffield chamber of commerce, asking that the Sheffield body be allowed to make an investigation before the Alabama Power company is granted a certificate of convenience and necessity in constructing a power transmission line from Huntsville to Sheffield.

SHEFFIELD, Ala., April 20.—The Sheffield chamber of commerce and the city commission of Sheffield have been advised by the Alabama Public Service Commission that their request for a postponement of the date set for a hearing on the petition of the Alabama Power company for permission to extend its transmission line from Huntsville to Sheffield, as been granted.

April 25 was the date originally set by the commission for the hearing of the power company's petition, but it is understood here that the hearing has been postponed until May 2 because of the local request.

Representatives of the city will be present at the hearing to protest against the granting of the petition and set forth their reasons for the request.

### FORD IS ASKED TO INSPECT RAILROADS

(Associated Press.)  
SPRINGFIELD, Ill., April 20.—Henry Ford, Detroit manufacturer, today has an invitation from the senate committee on transportation survey, to make an inspection of the Chicago, Peoria and St. Louis railroad in a final effort to save the road from abandonment.

Decision to invite Mr. Ford's inspection of the line was prompted by announcement that he planned to establish a large branch factory at East St. Louis and is seeking a suitable site.

### MILL IMPROVED.

The Albany silk mill people have stolen a march on the clean up campaign, by instituting a general clean-up and paint-up at their plant on Second Street, West. The majority of the work so far has been on the interior, where a complete job of painting was done. The contractor in charge of that work was Frank Borton.

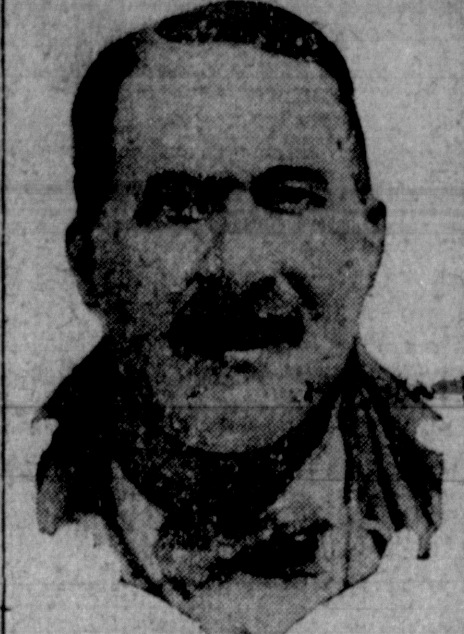

### Four Physicians Meet Tragic Deaths During Last Year in Morgan County

Local observers, in speaking of the loss to the county of a number of its best physicians within the last few months, have also spoken of the tragic manner in which the last four physicians who have died have met their deaths.

The death of the late Dr. W. M. Dinsmore was tragic in that a wound inflicted by a small instrument led to his death. The wound caused blood poisoning and the official report signed by Nashville physicians who were attending him at the last stated that "blood poisoning" caused the death of Dr. Dinsmore.

While his death came before Christmas time in last year, the passing of Dr. W. B. Murray who was killed in a fall from a train is still distinct

### Under Pharaoh's Curse

Howard Carter

Following close on the death of the Earl of Carnarvon, who financed the expedition of Howard Carter, an American, who discovered the tomb of Pharaoh Tutankhamen, in the Valley of the Kings, near Luxor, Egypt, Carter's sudden illness in Cairo, has added to the superstitious belief that a curse of the Pharaoh's is responsible. Declaring the sacrilegious explorers have often been slain by their own temerity, Ibrahim Gyraan, Egyptian priest of Cairo, some time ago said: "Each tomb bears a seal of execration, foretelling a terrible death for the disturbers of the Pharaoh's sleep. The vengeance of the Pharaoh's has been wrought on the Earl of Carnarvon. Howard Carter may laugh, but he will soon be stricken down!"

### MUELHEIM IS AGAIN IN GERMAN HANDS

(Associated Press.)  
MUELHEIM, April 20.—After being terrorized for three days by the communist mob which held it, Muelheim today is again under the control of the constituted German authorities. The forces of 300 police and city officials, which has been besieged in the Rathaus, made a sortie from this great fortress like building this morning, cut through the lines of the besiegers, caught them in the rear, arrested many, and again took control of the city.

BERLIN, April 20.—Eight persons so far are reported dead and more than 30 wounded as a result of the disturbances in Muelheim, according to dispatches this noon which state that although the city has been freed from the communist grip, armed bands still are causing trouble in the outskirts.

The communists, "red guards" as the special dispatches refer to the rioters, removed all their dead and wounded. The messages state that some of the wounded were taken to the barracks of the French occupation forces.

### BIG SCALE FARMING NOW TRIED OUT HERE

Local People Expect To  
Grow Much Corn  
and Cotton

### 2 PLANTATIONS ARE NEAR HERE

Rich Tennessee Valley  
Land Planted in  
Major Crops

Goaded on by the statement credited to the late Governor Johnston that "God had done more for the Tennessee Valley than any other spot on earth and its people less for it", not to mention the hope of financial gain, Col. and Mrs. W. B. Edmondson, A. G. Patterson and his cousin, Carl D. Patterson, Clyde Hendrix, president of the state banker's association, and W. H. Aycock, the wholesale dry goods merchant, have all started in this spring to balance up Governor Johnston's statement a bit by seeking to do something in a farming way for the famed Tennessee Valley. These people are original dirt farmers returned to the soil. They have already planted many acres of rich Decatur loam near the Twin Cities in "Hickory King" corn and have hundreds of other acres in course of preparation for the same kind of seed.

To be exact, Messrs. Patterson, Hendrix and Aycock, will plant 200 acres in corn and 400 acres in cotton; Mr. and Mrs. Edmondson will plant 300 acres in corn, 400 acres in cotton and 150 in hay.

The plantations of the two parties join except that Flint creek flows between them. Mr. and Mrs. Edmondson are on the west side of the creek and their acres join the east side of the city of Albany. The holdings of the other party lie east of Flint creek, and they overlook the Tennessee river. Messrs. Patterson, Hendrix and Aycock, are cutting away enough of it to high land around their broad acres so they can be viewed by sailors on the River-of-the-Great-Bend. A distance 538 long is being so treated according to Carl D. Patterson, who is very enthusiastic for the new farming venture.

Asked how such busy men as he and his partners expected to farm so much land, Carl Patterson replied that all the land was being worked by tenants under the supervision of a general manager, whose duty it is not to dictate to the dirt farmers on the big place, but to "suggest" to them and advise with them as to the best thing to do from the time the land is prepared until the last bit of cotton is picked and the last grain of corn is cribbed.

Asked how the company came to believe they could do something for themselves as well as farming in the "Valley" Carl Patterson said: "Well, J. A. Nichol made good on a similar proposition and he is still out in our neighborhood. On 12 acres Nichols made 600 bushels of corn. I tell you the Tennessee Valley is as rich as the valley of the Nile. Mr. Nichols told me that when he went to gather his corn he did not see how it would lay on the 12 acres. I saw the corn, when some corn was looking parched, the Nichols corn looked very dark and as if it had been varnished it shone so."

Mr. Patterson related what a farmer of Seymour, Ind., told him not so long ago. He said he asked the "yankee" farmer how much oats he made on his farm and he replied around 35 bushels to the acre. "And how much corn do you make?" inquired Mr. Patterson. "Oh from 35 to 40 bushels an acre", came the reply.

"And what would you take an acre for your land?"  
"\$200" said the Indiana man. Mr. Patterson said he told his northern brother that there was something wrong either in Alabama or Indiana, as land would bring from 35 to 40 bushels of corn per acre sold at only

WORKING BOYS INVITED TO ROYAL WEDDING

Several boys representing the British industries have received invitations to attend the wedding of the Duke of York, second son of the British rulers, to Lady Elizabeth Bowes-Lyon. Sidney Harrington was chosen from among the 350 boys in manufacturing plants to attend, while Horace Walter Gillard, employed by a building contractor, also was invited.

### Many Stunts Feature Program When Kiwanis Has Fair Ladies As Its Guests

It would take the pen of a Waterson in descriptive one of a Cobb in humor, to do justice to the meeting of the Morgan Kiwanis of Thursday night. It was ladies night and right well did they contribute to one of the most delightful occasions probably ever given here.

When the whistle blew, Big Chief Baird and his aides, after a prayer by Rev. J. D. Wallace, got into full action, and from the opening it was one continuous time of good fellowship in an atmosphere of kindness—for the wives and sweethearts were there to beam approval upon those who loved them best, and to cheer their "one-horse" husbands and husbands to be, on into an evening of merriment and delight.

With graciousness and beauty surrounding them the Kiwanians could have done nothing else than acquit themselves most creditably and it is private opinion, publicly expressed, that each and every one were glad indeed that the good women present had done all they could to make the best possible out of the material they had to mould and knead and shape.

Each lady present was presented with a rose and at each place at the table was a handsome leather covered note book, with the Kiwanis emblem stamped thereon, as a memento. It is to be hoped that on many future occasions the Morgan Kiwanis may be favored by the appearance in their midst of these good women, for what would the world amount to were it not for the restraining hand and gentle encouragement from the sex, that really and in fact direct things on this mundane sphere.

By ballot, Mrs. Marvin Rankin, Mrs. J. R. Daniel, Mrs. W. W. Fus-

sell and Mrs. E. J. Polhill were selected as contestants in a "Balloon Blowing" contest. This was some contest, Mrs. Rankin being declared the winner, distancing competitors, and was awarded a handsome pair of silk hose. When the lemon, corn and alarm clock contest reached a decision—and it was a lively contest—Mrs. Will Wyker proved the winner.

Tragic.  
Just before the last curtain fall, with Dr. Jas. A. Duncan as lecturer, a great picture play was given, the celebrities producing "Teatiful Nell, a peony of the Plains and Rube Rawlins, the earless trapper" with great fidelity and the following cast:  
Sitting Bull—E. W. Godbey.  
Indian Squaw—Geo. D. Williamson.  
Soldier and Hero—L. F. Goodwin.  
Beautiful Nell—J. D. Wallace.  
Heirless—C. C. Davidson.  
Indian—Wilbur Bailey.

Synopsis—Abduction of heiress by Indians; heiress lashed to stake; after thrilling horseback and canoe rides; rescue by hero, suicide of Beautiful Nell and heiress pressed to bosom of hero.

Costumes correct and up-to-date, portrayal of characters tender and true and heroic, together with the awful rides on horse and via canoe. Realistic! I say it was. Those Indians in all their war paint and feathers, and that hero he was some shooter, "he drew his trusty revolver and fired five shots into the dastard's heart, but the villain still pursued her"—why that boy mowed 'em down and put them hors de combat, much to the delight of an applauding audience who cheered them on to an untimely death. This notice would not be complete should not mention be made of the pathetic pathos of Indian Squaw and Beautiful Nell. Still due credit must be given to Sitting Bull for he was a star of the first magnitude—"I'm a bad man from Blitter Creek, the higher up you go the worse they are and I'm from the high waters."

Seriously, this was a most pleasant and entertaining meeting and everything was laid aside in order that it be one long to be remembered by those present. The thanks to the club, those of its members who contributed so much to the success of the evening in taking active part, may rest assured they have in full measure.

Among those who were guests

The oil companies involved in the indictments have taken in over \$7,000,000 in cash and into three of the companies were merged 458 companies, which had sold \$136,000,000 in stock, United States District Attorney Zeigfield declared the investigation had disclosed.

Approximately 2,064,000 persons were stockholders in the merged companies and the companies named in the indictment. Among those indicted and made public are: Marshall Spountz, former county attorney; E. C. Kingsbury, Republican choice for the Fort Worth postmastership; Dr. Frederick Cook, sole trustee and president of the Petroleum Association.

### FUNERAL IS HELD FOR DR. DINSMORE

Funeral services were held for Dr. W. M. Dinsmore Thursday afternoon at the Central Methodist church and a large gathering was in attendance. The floral tributes were numerous, beautiful. Dr. T. G. Harris, the pastor of the church, had charge of the service, assisted by Dr. L. F. Goodwin, Dr. James A. Duncan and Dr. George M. Davenport.

The funeral address was delivered by Dr. Davenport, who spoke on the significance of life and the certainty of death. The opening scripture reading was by Dr. Goodwin, who read the 99th Psalm, followed by a scripture reading from the New Testament by Dr. James A. Duncan.

In addition to the hymns, several numbers were rendered by a quartette composed of Mrs. Joe Petty, Mrs. J. G. McQuay, J. W. Boggess and B. B. Pickens.

A large concourse of sorrowing friends attended the services as a final mark of love and esteem in which the departed physician was held.

WASHINGTON, April 20.—Suspension of four Alabama prohibition agents, including William B. Ford, assistant state director, under charges of improper official conduct, was announced today by Federal Prohibition Commissioner Hayden.

The agents suspended were: Miss Leila Huey, Walter B. Seale and John A. Wilson. The suspensions were recommended by government agents of the treasury intelligence unit. The charges were understood to have been initiated by Bibb Mills, member of the Alabama legislature.

Failure to make a proper report on the suspension. The suspension of the agents was the first action in the office of the prohibition agent.

BIRMINGHAM, Ala., April 20.—An investigation of charges against Bibb Mills, member of the Alabama Anti-Saloon League, certain prohibition officials, officers here, has been going on for a month; it began here today. Special Agent Campbell, Warfield and Austin are said to have been on the allegation made by the state and a suspension of W. B. Ford, assistant state director, and three persons connected with his office, is said to have resulted from the inquiry.

Mr. Mills has refused to make public the charges, saying that the matter was in the hands of Commissioner Hayden. He admitted that he had filed the complaint.

At the office of the Alabama director nothing was given out concerning the suspension.

### DILLARD ELECTED STATE S. S. HEAD

Judge L. P. Troup, who among many others of this section attended the state Sunday School convention in Birmingham, which has just closed, stated this morning that the election of Dr. James E. Dillard who opens the Central Baptist revival Sunday, as President of the State Sunday School Association, had met with large approval throughout the state from conversations he had heard in Birmingham and in North Alabama, since the convention.

Judge Troup said that if he were to try to echo the sentiments of the big speakers of the convention he would have to begin with Governor Brandon, as that official created a deep impression. Governor Brandon said that the really important assets of the state were its people and especially the school children.

Governor Brandon advocated the free and full use of the Bible in the public schools in his address, stated Judge Troup, and paid a glowing tribute to all who made a sincere effort to teach the spiritual truths of the Bible. Dr. McGill, of Chicago, of the International Sunday School Association, was the outstanding speaker of the convention according to Judge Troup, who reported that Dr. McGill endorsed the free use of the scriptures, but insisted that all who taught the Bible should have two qualifications, first Christian character, and second intellectual training. Dr. George R. Stuart, made the humorous speech of the convention, according to Judge Troup.

(Associated Press.)  
LONDON, April 20.—For the first time in its history the House of Commons today discussed a liquor prohibition bill and at the expiration of the argument on it, killed the measure by rejecting its second reading 236 to 14. The bill was that one recently introduced by Edwin Scrymgeour, of Dundee, who has devoted his life to the cause of prohibition.

## Get health—Keep health—Feel fine by eating Kellogg's Bran regularly!

Constipation and the toxic poisonings that come from it not only take the enthusiasm out of life, making you depressed and physically and mentally dull—but they lead you into diseases such as Bright's, diabetes, rheumatism, etc. You can actually rid yourself of these dangers if you will EAT KELLOGG'S BRAN REGULARLY!—at least two tablespoonfuls daily; in chronic cases with every meal!

Kellogg's Bran is nature's most wonderful food. It is scientifically prepared to relieve suffering humanity from constipation and it will do that as no other food can! Don't take a chance of "getting away" with constipation—IT WILL GET YOU! Don't ruin your health with pills and cathartics—they are as dangerous as constipation itself and give but temporary relief, at the very best!

What you should do for your family and for yourself is to serve Kellogg's Bran every day, in any one of several attractive ways, and fight constipation as you have never fought it before! AND YOU WILL WIN.

In the first place, Kellogg's Bran is delicious in its nut-like flavor, adding greatly to any cereal with which it is used. Eat bran as a cereal with hot milk, or mix it with hot cereal before serving. Another method is to cook Kellogg's Bran with cereal. In each case add two tablespoonfuls of bran for each person. A popular way is to sprinkle bran on hot or cold cereal. Bran makes wonderful bakery products. Recipes are printed on every package.

Kellogg's Bran is served in leading hotels, restaurants and clubs. It is sold by all grocers.

## WE FAVOR ACCEPTANCE OF HENRY FORD'S BID FOR MUSCLE SHOALS.

### THE CHICAGO ELECTION.

The mayoralty election in Chicago was both a  
victory against bossism and a turning to the Dem-  
ocratic party. The result was long foreseen, and  
was perhaps very clearly apparent to Mayor  
Thompson when, before the primaries, he with-  
drew from the race. For eight years the William  
Thompson machine dominated the political  
situation in Chicago, and even in the state.

The first break in power came a year ago when  
edges not approved by the machine were elect-  
ed by good majorities. The majority was about  
three to two in favor of Judge William E. Dever  
against Arthur C. Leuder, who was nominated by  
a coalition of anti-Thompson factions.

The remarkable feature of the election was  
the casting of 4,000 Socialist votes compared with  
5,000, the previous high record.

The situation in Chicago reveals a popular sen-  
timent against Republican rule.

There is a wide disapproval of the national Re-  
publican record, and there is indication that the  
record will not be improved during the few  
months yet remaining before the presidential  
campaign. The Democrats were defeated before  
because of the inevitable dissatisfaction with  
things in general that came as an aftermath of  
the war, which human wisdom could not have  
averted. The Democrats were blamed for a condi-  
tion over which humanity had no control and  
which reached its most poignant climax in Europe.  
The Republicans, on the other hand, may defini-  
tely be blamed for their many and persistent  
failures to enact constructive legislation and to  
utilize the tremendous national opportunities that  
fairly begged for attention. When they go before  
the people it will not be easy for them to hide  
their failures or to explain why they did not adopt  
and follow through statesmanlike policies of na-  
tional and international import.

In the meantime, every important political de-  
velopment, such as that in Chicago, deserves the  
careful analysis of Democratic leaders, in order  
that each such development may be fitted into the  
legitimate Democratic appeal for public support  
when again the party comes before the people for  
indorsement and re-election.—Age Herald.

Nobody will think of believing the Irish war-  
fare is over until "The President of the Irish Re-  
public" is safe behind the bars.

There is the bare possibility that the opening of  
the baseball season may cause forgetfulness of  
the "clean up season" just ahead.

If there were some way to have a hall of fame  
for those who have good "hind sights" all hands  
could become famous.

No class of people will welcome the proposed  
light aluminum automobiles with as great enthu-  
siasm as will the man who they run over.

### TUBERCULOSIS HOSPITALS NEEDED IN EVERY COUNTY.

In waging war against tuberculosis, sanitar-  
iums where patients can receive just the kind of  
attention and treatment they need, and open air  
camps in which nature can help effect a cure, are  
important features.

Hospitals and sanitariums designed especially  
for tubercular patients enable the most effective  
work to be done in handling the disease and for  
this reason many cities and counties are provid-  
ing such places.

Etowah county has an open air tubercular san-  
itarium near Gadsden which is proving a great  
aid in handling cases arising in that county, and  
Birmingham is planning a tubercular hospital in  
which tuberculars in that city can be treated.  
Every city should have such a retreat for tuber-  
culars and in time every city will have one, for  
it is being well demonstrated that the disease can  
be conquered and its progress checked through  
the treatment, care and rest patients can be  
given in especially provided hospitals.

The importance of making a constant and a  
determined fight against tuberculosis is being im-  
pressed more and more upon the people of this  
country.

Fine progress has been made in recent years  
in Alabama in combatting the disease; and the  
work in this state is but starting. When all of  
the cities and all of the counties take the neces-  
sary steps to handle their own cases in their  
individual home hospitals or camps, then  
greater progress will be made and ultimately  
tuberculosis will be robbed of its terrors.

The proposed tubercular hospital near Birming-  
ham is regarded by health authorities as one of  
the greatest needs there.

If a successful fight is to be waged against  
tuberculosis places must be provided where those  
suffering from the disease can be given the prop-  
er treatment, nursing and diet and where a  
chance will be given for nature to give her help  
in effecting a cure. A hospital or sanitarium in  
every county, near the largest town, would be a  
wonderful aid in the campaign. Anniston and  
Calhoun county should have one. Every city of  
Anniston's size should have one.—Anniston Star.

A new town called Muscle Shoals has been pro-  
jected and if it goes through there will be three  
cities alongside each other on the Tennessee near  
the Wilson Dam. Another proposition is for all  
three cities to join forces and form one real  
place of real proportions. Matters of this kind  
are not to be settled by outsiders. Citizens of  
the three towns have the right to indulge in big  
thoughts and it is happy augury that leads them  
to consider projects that may seem to fit in with  
approaching opportunity.—Age Herald.

One of the finest exercises to induce swiftness  
is to attempt to keep up with the bread wagon.

Clothes may make a man but when he goes to  
pay for them he is a better man if he gets by.

The man who makes plans, generally speaking,  
has to work them out himself. For instance if you  
plan to eat dinner, first earn the price of it.

As a general rule those who attempt to take a  
strong hand get a heavy hand laid on them soon-  
er or later.

Most of us are only half alive. If we would  
we might undertake and accomplish incredibly  
more.—Baltimore Sun.

The art of money making is a long one, there-  
fore many who study that art come up short.

No wonder so few people can think while on  
their feet; for nearly everybody rides nowadays.

Two things that will win—the right kind of  
a voice and the right kind of a smile.

### OFFICE CAT

Copyright 1921, by  
Edgar Allan Moss.

The farmer's mule had just balked  
in the road when the country doctor  
came by. The farmer asked the phy-  
sician if he could give him something  
to get the mule. The doctor said he  
could and reaching down into his med-  
icine case, gave the animal some  
medicine. The mule switched his tail,  
hissed his head and started on a man  
gallop down the road. The farmer  
looked first at the flying animal and  
then at the doctor.

"How much did that medicine cost,  
Doc?" he asked.

"Oh, about 15 cents," said the phy-  
sician.

"Well, give me a quarter's worth  
quick, I've got to catch that mule."

### THE AUTOBOOB.

(By J. Berg Esenwein.)  
I'm the original autofool,  
A pesky sort of animal.  
Fifty per cent is slow for me,  
I don't look out for the other fel-  
low.

The chap who does is simply yel-  
low.  
I drive in the dark without my  
lights.

And suddenly stop on the blackest  
nights.

I put on speed at all blind corners  
If a smash up comes, just page the  
murderers.

I go my darndest around the curve,  
And pass some guy, to show my  
nerve.

I hit it up on the slippery streets,  
And step on the gas when it rains  
in sheets.

I give no signal when I stop  
I don't respect the traffic cop.

I love my brilliant dazzling lights,  
I coast the hills on winter nights.

I scare the horses with my horn,  
My muffler cut-off roars at morn.

I pass to the left of a trolley  
car,  
I never see a "road closed" bar.

I always drive on the street car  
track.

I never signal when I back.  
I love to speed where children play  
I always take the right of way.

I laugh when I graze a timid Rube.  
For I'm a reckless Autobob.

Judging from a want ad in a near-  
by paper there were four big functions  
in that city during the past year.

Here is the evidence. "For Sale—Tux-  
edo, worn four times."

The reason people place very little  
value on advice is because they don't  
have to slip out after night and break  
a law to get it.

Hollywood is not thought to be in-  
terested in Dr. Coue's philosophy.

THE REPAIR MAN SPEAKING

"What's wrong with the old bus?"

"Everything," said the auto repair  
man.

"Is that so? I suppose you can  
find something wrong with the license  
tag?"

"Sure. It needs tightening up a  
little."

Some people smile in a way that  
makes you think they are bestowing  
a favor.

SPEAKING PLAINLY

The principal difference between  
a man who admits that he is anxious  
to get rich in a hurry and the one  
who claims that he is willing to work  
his way up, depending upon his merit  
alone, is that the latter is a liar.

A butcher's wife is suing him for  
divorce because he looked her up in  
the cooler for two hours. "Was the  
only way he could stop her talking,"  
he declared.

# CALUMET

The Economy BAKING POWDER

Some little time ago I made a careful study and investigation of the baking powder subject and I feel fully repaid. I am firmly convinced from the results I have received that there is no baking powder to equal Calumet for wholesomeness and economy, and I also recommend Calumet Baking Powder for its never failing results.

## QUICK, SURE, SAFE

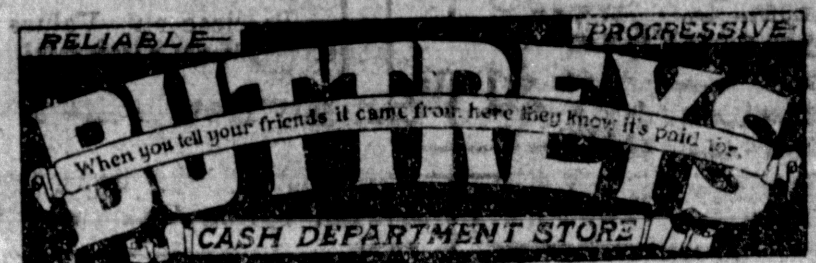

For Pain and Colds.

A need of all time has been found in Kozol, a new remedy for pain, and preventive of colds and fevers. It is quick, sure, safe. It is superior to all other remedies—for headache, neuritis, neuralgia, rheumatism, lumbago, sciatica, colds and influenza.

Kozol is superior because it is more rapid in its action than other remedies, more reliable in its effects—and it is entirely safe. It may be taken freely over prolonged periods without losing any of its effectiveness. And it may be used by everyone, even by those who cannot tolerate aspirin, phenacetin and quinine. This is due to the fact that the chemical composition of Kozol is entirely different.

Modern science may well be proud of Kozol, a most welcome newcomer in the medical world. Well-known hospitals have been quick to grasp the privilege of adding it to their stocks of favored medicines. Kozol has been put on sale for general use—in convenient tablet form. At all druggists, —adv.

"Everything my little 12-year-old daughter has done, even a glass of water would cause her to belch gas and she was unable to go to school for nearly a year. I bought her a bottle of May's Wonderful Remedy, and since taking it she is eating as usual, and home and is attending school again." **Boiler Explosion Takes Four Lives**  
(Associated Press.)  
TAMPA, Fla., April 20.—Four men were killed instantly and several injured near Seffner, ten miles from here today, when the boiler at a saw-mill exploded. The dead are: Archer Bean, 17; W. B. Alexander, 60; J. A. Stagger, 30; and E. Johnson, 60. All the men were white and employed about the mill.

**LOCAL PEOPLE AT SHRINE CEREMONIAL**  
The local Masons returning from Birmingham, where a mighty host gathered for the ceremonials incident to the dedication of the new Masonic Temple, while now stands complete in the Magic City, at the corner of Fifth Avenue and Nineteenth street, just across from the First Methodist church there, report among other interesting things that they "had the time of their lives."  
Some among the local women who attended declared that the crowds and the excitement, and the much walking were too much to suit them. John B. Bethea Sr., a well known business man of Birmingham who knows the state thoroughly, stated to T. A. Bowles, that he had never seen so many Tennessee Valley people in Birmingham in all his previous existence in the Magic city.  
James H. Johnson said that while he never saw such crowds, that also he never saw such good humored people in his life.  
Words failed the returning Masons when they attempted to describe their magnificent new temple. It stated that the lighting scheme employed in it was a most complete arrangement of its kind.  
Among the following to alight from north-bound trains who attended the big Masonic gathering were: Mr. and Mrs. E. R. Wolfe, Mr. and Mrs. T. A. Bowles, J. H. Johnson, G. H. McClellan, S. H. Malone, F. H. Pointer, Mr. and Mrs. J. B. Harlow, Robert Banks, Miss Ruth Banks, T. M. Jones Jr., George Mainard, C. W. Matthews, J. C. Eyster, W. E. Skaggs, Mr. and Mrs. W. E. Crawford, W. H. ## NEWS OF CAPITAL

(Associated Press.)

MONTGOMERY, Ala., April 20.—A second tentative set of regulations governing the classification of cotton and the licensing of cotton classifiers as provided by the United States cotton standards act passed at the last session of Congress, will be prepared as a result of a conference of representatives of cotton growers, spinners, and shippers from all over the country held by the United States department of agriculture recently at Washington.

The act prohibits the use of foreign grade and staple standards for American cotton, and establishes the official standards of the United States as the sole standards in interstate and foreign commerce. It also enables the secretary of agriculture to interpret the official standards by determining the classification of cotton submitted to him for this purpose and by the arbitration of disputes as to classified arising out of commercial spot cotton transactions. A permissive arrangement for the licensing of classifiers by the Secretary of agriculture is also provided with a view to facilitating shippers' compliance with the law.

The present conference is the first of a series of public hearings to be held in the principle spot cotton markets throughout the country to enable the secretary of agriculture to prepare official rules and regulations under the act. The conference is presided over by Lloyd S. Tenny, assistant chief of the bureau of agricultural economics. Subsequent hearings in the spot markets will be conducted by Mr. Tenny, and William R. Meadows and others of the Cotton Marketing Division. The list of hearings and dates are: Norfolk, Va., April 23; Charlotte, N. C., April 24; Augusta, Ga., April 25; Savannah, Ga., April 27; Atlanta, Ga., April 28; Montgomery, Ala., April 30; New Orleans, La., May 1; Houston, Texas, May 2; Dallas, Texas, May 3;

Stunts Feature At  
Kiwanis Meeting

(Continued from page 1)

Mrs. Frank G. Cook, of Columbia, Tenn., and Mrs. Fred Stutz, of Missouri, who formerly made their homes here. Many of their old friends had an opportunity to welcome them and express the wish that they visit us often. Lunch was served by the ladies of the Presbyterian church and the one, for which please accept the thanks of the Morgan Kiwanis Club.

## Bob Daniel at Piano.

Bob led, as he always does cleverly, in whipping into line the lyric artists of the club and to stirring airs the following beautiful lines were sung with a spirit that would have done credit to metropolitan celebrities.

Come all good fellows and work lay  
aside,

Come where good cheer and Kiwanis  
abide

Come now and sip of the good fel-  
lowship that is waiting there,

Come where the spirit fills our heart's  
desire

Come where good fellows to heights  
all aspire,

Come now and hear in a song ring-  
ing clear on the blithesome air,

Chorus.

phis, Tenn., May 5.

The number of white inmates in the Alabama penitentiary during the last few months has exceeded the number of negro convicts received, it is shown in a report recently compiled in the office of Roy L. Nolen, associate member of the state board of convict supervisors.

The number of white men in Alabama prisons at this time is listed as 872 as compared to 860 a year ago. The number of negro prisoners totals 2011 compared to 2057 last year at this time, the report shows.

Violation of the prohibition law is declared to be the principal offense for which most of the convicts were sentenced.

The counties sending up convicts during 1923 were:

Autauga 3; Barbour 4; Bibb 4; Blount 2; Butler 3; Calhoun 7; Cherokee 3; Chambers 4; Clarke 1; Clay 7; Coffee 2; Cleburne 3; Covington 4; Colbert 1; Cullman 9; Dale 2; DeKalb 6; Elmore 6; Escambia 5; Etowah 3; Fayette 1; Geneva 6; Green 1; Houston 5; Jackson 3; Jefferson 21; Lamar 5; Lauderdale 13; Limestone 3; Montgomery 13; Mobile 8; Marshall 1; Macon 1; Madison 9; Monroe 3; Perry 3; Pike 1; Randolph 3; Russell 5; Shelby 1; Talladega 1; Tuscaloosa 4; Walker 1.

State prep fandom will turn their eyes to Birmingham during the present week-end as Sidney Lanier of Montgomery and Simpson school of Birmingham clash in a three game series on the diamond. Lanier and Simpson are said to be today recognized as the two chief high school rivals of the state, yet their rivalry is said to be extremely friendly.

## "WORSE THAN PAIN"

Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La.—"It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. G. Bowman, of 1319 Front Street, this city.

"I was so run-down in health I could hardly go. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, I was no pleasure to myself.

"I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart.

"This nervous condition was worse than pain.

"Some one told me of Cardui, and I decided to use it.

"After using a few bottles, I regained my strength. I wasn't so nervous, and began to eat and sleep, and grew stronger and was soon well.

"I have never found anything better for a run-down condition."

If you suffer as this Louisiana lady did, you, too, should find Cardui helpful to your troubles.
